...and that no one says: "I didn't know".

This presentation is simply to explain the most important historical facts about Palestine and the changing fortunes of the Palestinian people.

It should not be interpreted as an accusation against the Jews, who have also suffered , nor against the people of Israel.

Persecution of the Jews, culminating in the Holocaust, where 5.5 million Jews were murdered, has impacted Jewish and non-Jewish attitudes throughout the world towards Palestine.

It is very important to distinguish between Jews in general and Zionists and/or Israelis, who are directly responsible for the sufferings of the Palestinian people.

There can be no peace without justice.

Note that in the history of Palestine with the word "Jew" or "Jews" are intended as a description for Zionist Jews.

According to some modern claims there wasn't an exodus but only an escape of small groups of opponents of the Pharaonic regime, (scripture says different) groups that joined the existing Canaanite tribes in Palestine.

But according to scripture, there was an exodus, but the nature of the people diverged, yet the promise remained true for several branches of the monotheist family.

About 1250 B.C.E The Jews escaped from Egypt and returned to Palestine

In Palestine the Jews battled many Cananeans and Philistines, who also arrived at a similar period. The rulers of the time stated that Palestine had been promised to them by God.

The Jews in Palestine:

In the year 539 B.C.E, Cyrus, the Persian, set the Jews free, but only the Judean tribe returned to Palestine which subsequently was dominated by the Persians (today Iranians). At that time a smaller temple was built. According to some modern researchers the origin of certain practices within certain sects of Judaism dates from this period.

322 B.C.E. - The Macedonians (Greeks)

In the year **33 A.D.** According to Christian teaching, Jesus was crucified (Islam teaches Jesus/Isa was raised up to be with his lord).

In the year **70 A.D.** the Romans brutally repressed the rebellion of the Judeans, destroying the second temple, the province is now totally under Roman control.

Between the eighth and ninth century A.D. the Khazars began to convert to Judaism. Scattered in Eastern and Central Europe because of the attacks of the Mongols and Turks, with other Europeans who converted to Judaism, they form the majority of Ashkenazi Jews which, since the holocaust are the majority of world Jewry.

Dear Lord Rothschild,

I have much pleasure in conveying to you, on behalf of His Majesty's Government, the following declaration of sympathy with Jewish Zionist aspirations which has been submitted to, and approved by, the Cabinet

"His Majesty's Government view with favour the establishment in Palestine of a national home for the Jewish people, and will use their best endeavours to facilitate the achievement of this object, it being clearly understood that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish communities in Palestine, or the rights and political status enjoyed by Jews in any other country"

I should be grateful if you would bring this declaration to the knowledge of the Zionist Federation.

Total Jewish passengers killed: 217
Total British Crew killed: 50
Total killed: 267
Wounded persons: 172

This was a Jewish Zionist attack against their fellow Jews escaping from the Nazi-fascist persecution. For the Zionists opposed the British decision to RELOCATE the boat load full of ILLEGAL IMMIGRANTS (who were trying to sneak into British Palestine) to the MAURITIUS islands. So the Zionists decided to MURDER their fellow Jews, rather than allowing them to settle in a location OTHER than Palestine.

**The secret agreement

Zionists**

King Abdullah I of Jordan

On 17 November 1947 King Abdullah I. of Jordan signed a secret non-aggression and partition agreement for Palestine with Golda Meir: the West Bank became part of the Kingdom of Jordan. The remaining 3/4 of Palestine goes to the Zionists. The Palestinians are marginalised, and for them there is no independence promised by UN Resolution 181. This secret agreement can be seen as a treason of the Arab-Palestinian cause and proves that the Zionists had no intention to respect UN Resolution 181. In this way, the Zionists prevented the establishment of the Palestinian State and had a free hand to carry out ethnic cleansing.

PALESTINE STRIFE CREATES DP ISSUE

200,000 Arabs Are Now Listed
as Homeless—Jews Put Own
Refugees at 15,000

JERUSALEM, May 3 (AP)—Civil war in the Holy Land, as in all wars of history, has created its displaced persons problem.

Refugees streaming out of Arab towns and villages harassed by Jews have become a political issue. The Arabs say that 200,000 have been "made homeless by Jewish aggression." The Jews admit that about 175,000 Arabs have left, but add that they could stay in safety, even in the once-mixed towns such as Haifa and Tiberias, which the Jews have conquered.

According to the
New York Times
on May 4, 1948

(10 days before the self
declaration of the State of Israel)

there are already **200,000**
Palestinian refugees.

The Zionists have the
nerve to say that Arabs

1948 Truman – Ben Gurion

After the first Arab-Israel war (Armistices of Rhodes) the events in Palestine are more and more intertwined in the milieu of the Cold war with

Israel a close ally of the United States of America and some Arab states allied with the Soviet Union.

The unconditioned help of the USA (quantified up until 1997 in 91 billion \$) allowed the Israelis to drive back the attacks of the Arab countries and to follow up until today its politics of the conquest and occupation of Palestine and domination of the Middle East.

As everybody knows, the Cold war was won by the USA. Thus, the present politics of Israel must be included in the global project of American imperialism to dominate the world.

THE MODERN PERIOD

PART IV

From the war of
1967 to 1995

(occupation and repression)

Israel must invent dangers, and to do this it must adapt the strategy of provocation and revenge.

General Moshe Dayan

http://en.wikipedia.org/wiki/UN_Resolution_242

November 22, 1967 - With resolution 242 the UN orders Israel to withdraw from the militarily conquered territories (as this kind of occupation is contrary to Chapter 4 of the UN Charter)

In response, Israel intensifies its campaign of confiscation of Palestinian land and colonization of Palestinian and Syrian territories occupied after the 1967 war.

Furthermore in the Palestinian territories Israel exerts strong repression of the native population and start a attrition war against Egypt and Jordan.

At the UN Security Council the USA systematically uses their veto to inhibit every resolution unfavorable to Israel.

Settlements: Ma'ale Adumim

Ma'ale Adumim. Israeli colony near Jerusalem. In 1975, around 100 Israelis settled there illegally. In 1977 the government of Menachem Begin granted permission for a permanent settlement. In the 1990s the approximately 1'100 Bedouins who lived there were driven out. Today M.A. covers about 14 Km², it has about 40'000 inhabitants (Israelis), has swimming pools and also a small artificial lake. According to Peace Now 86.4% of this settlement is built on land confiscated to the Palestinians. Together with the colonies of Mishor_Adumim, Kfar_Adumim, Alon and Gilo, Ma'ale Adumin forms a planned urban belt that surrounds and suffocates East Jerusalem and cuts the West Bank in two.

Note that after 1967 the colonisation of the occupied territories was continuous and even accelerated, in spite of international conventions declaring this practice illegal and the agreements and/ UN resolutions ordering their suspension.

PALESTINE and the UN

On 23 September 2011, the President of the Palestinian National Authority Mahmoud Abbas delivered the request for recognition of a Palestinian State to UN General Secretary Ban Ki Moon and made an historic speech before the UN General Assembly calling for justice for the Palestinian people and remembering Yasser Arafat. Israel and the U.S. are opposed to the recognition of a Palestinian State.

On 29 December 2023, South Africa sued Israel at the International Court of Justice in The Hague for genocide.

The civil war between Christian Maronites and Palestinians bursts out, and later it will also involve Shia Muslims and Druse. All the involved parties are armed and undertake terrible atrocities and slaughters.

In 1976 The community of Arab states send a peace force, mostly composed of Syrian troops, that goes on to occupy most of Lebanon.

The Palestinian militias are divided , some pro-Syria and others followers of Arafat and they fight each other. The Palestinians, alternatively allied to Shias and to the Druse are going to take the upper hand.

Water

Palestine has always been livable because there is also enough water, but now the problem is its distribution.

Water

399

There is enough water in Palestine, but the Israelis take a good part of the surface and ground water of the occupied territories and Southern Lebanon to the lake of Galilee, out of which it is then distributed to the whole Israeli national territory.

Only a little water is left for Palestinians. The Israelis then sell them the same water at a higher price.

Since 1948 the water supply (wells, springs, pipes, irrigation systems, tanks, cisterns, water reservoirs, etc.) of the Palestinians are a preferred target of the Israelis because lack of water is forcing the Palestinians to leave.

Palestinian water

From the satellite image the lack of water in the occupied Palestinian territories is clearly visible. Considering that in the West Bank there is enough rain, it is obvious that the drought is due to the unequal share in favor of Israel and its colonies by Israeli water company Mekorot.

Palestinian women

Leila Kaled (1970)

In Palestine, the weight of conflict often falls on the woman, whether mother or relative of a prisoner or martyr, or as political activist, or as militant or resistant. There are about a hundred Palestinian women held in Israeli jails.

Often the family tensions created by the harsh living conditions caused by Israeli occupation have a strong impact on women, sisters, wives and mothers (for example; by the loss of the home). Quite often the women, with their modest work, are the only wage earners for the family. Some say that popular traditions restrict freedom for women, and limit their participation in civil and economic society, which effects society as a whole.

Jew born in Israel, who at the age of 14 enlists in the Haganah. In 1948 he commands a battalion of the Alessandrini brigade, responsible for the massacre of Tantura. In 1953 he directs the Attack unit 101 that committed several massacres, including at Qibya. In the Sinai war of 1956 he ordered the killing of hundreds of civilian prisoners. From 1960 he occupied high positions in the Israeli army and organized the systematic elimination of Palestinian fighters and the confiscation of Palestinian land. Minister in the Rabin government, he motivated the colonization of the occupied territories, supporting the right wing extremist movement of Gush Emunim, which are run as Unit 101.

In 1980 he starts a terror campaign against the Palestinians. In 1982 as minister of defense he promotes the invasion of Lebanon and the massacres in the Palestinian refugee camps of Sabra and Chatila. In order to destabilise the PLO he promotes an alternate Palestinian organization: Hamas. He refuses to apply the Oslo peace accords and hinders in any way the creation of a Palestinian State. Prime minister from 2001, he paid a provocative visit to the Al Aqsa complex, to trigger a Palestinian uprising (Intifada). From 2002 he started the construction of a wall around the occupied territories in order to shut the Palestinians in a ghetto. He enjoyed nearly limitless support from US president G. W. Bush. He has hatred of Arafat and confined him in the Mukata. After the death of Arafat he participated, unenthusiastically, in meetings with Mahmud Abbas, promoted by the USA and Egypt.

In 2005 he ordered the evacuation of the Zionist settlements in the Gaza Strip and founded his own political party Kadima.

From the end of 2005 he lies in an irreversible coma until his death in 2014. He was buried in the large sheep farm that as prime minister he let be assigned to his son and which had been confiscated from the Palestinian Abuelaish family who tragically had to take refuge in Gaza.

He has been replaced by Ehud Olmert, who pursues largely the same policy.

Haganah: 1921 - 1948

The main paramilitary militia, founded as a self-defense force, made a quantum leap in 1929 and 1936 to counter the Palestinian riots. The Haganah performed bloody massacres and terrorist and retaliation operations against the British and Arabs, participated in the colonial war against the Arabs and in the ethnic cleansing of Palestine.

In 1938 members of the Haganah participated in terrorist operations against the Arabs along with the infamous British unit the Special Night Squad and formed the appalling Jewish colonial police.

In the 40s the Haganah became a real army with about 100,000 militiamen.

Special units of Haganah:

Fosh (1937 - 1939)

Palmach (1941 - 1948) composed of about 20,000 professional militiamen, well trained and equipped and divided into 3 brigades of which one was armored.

In 1948 the Haganah formed the nucleus of the newborn Israeli army IDF. Several Haganah commanders, including Ariel Sharon, made a career in politics and entered government in Israel.

JERUSALEM

In 1948, the Israelis illegally occupied West Jerusalem.

In 1967 they also occupied East Jerusalem and joined the eastern part of the city and extensive territories of the West Bank to the municipality of West Jerusalem. Following this they illegally declared Jerusalem the one and indivisible capital of Israel, and they surrounded it with a big wall and countless colonies.

For several years, little by little, the Israelis are expelling the non Jews from Jerusalem. The Palestinians want to make East Jerusalem the capital of the state of Palestine, which the Israelis want to prevent.

Since 1967, the Palestinians of East Jerusalem are forced to pay taxes, but the Israeli administration does not provide them public services reserving these for the Jewish neighborhoods. For the Palestinians who do not pay taxes, their residence permits will be revoked and often, citing various pretexts, their private property will be confiscated.

The airport of Qalandya (originally a British military airport) was promised to the Palestinian State but has been included in the urban area of Jerusalem by the Israelis in order to make an Israeli industrial zone.

Golan

The Syrian territory of the Golan Heights, was occupied by Israel in stages during the wars of 1948, 1967 and 1973 + 2024.

In 1974, the Israelis withdrew to the armistice line.

Since 1974 the UN has established a buffer zone between Israel and Syria, where UN observers are stationed permanently. Syria still claims sovereignty over the Golan Heights. Lebanon also claims a small part of it (Sheba farms).

Golan

Quneitra:

The provincial capital of Syrian Golan, has been occupied and plundered by the Israelis since 1967. The 20'000 inhabitants have fled to Syria. The city was hotly disputed during the 1973 war. Israelis completely destroyed the city in 1974, shortly before withdrawing in accordance with the armistice. Today what remains of Quneitra is a ghost town and the area is included in the UN-controlled demilitarized territory.

Inside the Gaza Strip, along the border, the Israelis have formed an inaccessible security zone about 1 km wide. Consequently, the surface area available to the inhabitants of the Gaza Strip is reduced by approximately 60 km², mainly agricultural land.

In 2004/5 Israel withdrew 15'000 Zionist colonial settlers (in blue on the map and the crisscrossed areas) leaving behind only rubble and devastation.

Between the Gaza Strip and Egypt, the security zone is called "Philadelphia Corridor»

Gaza Strip Water

In the Gaza Strip, only 10% of the water is usable for consumption.

Due to the excessive exploitation of groundwater sea water enters the depths of the Gaza Strip. The groundwater is heavily polluted also because sewage systems are damaged by Israeli bombing and lack of electricity, neglect due to staff and material shortages, etc.

Floods are frequent.

Syria Conflict

Yesterday and today, the presence and the help of UNRWA is vital for the Palestinian refugees.

2025 - Israel declared UNRWA a terrorist organisation and banned its presence and activities in Israel and occupied Palestine, including Gaza.

In Hebron, 500 settlers live defiantly in the center of the Palestinian town. Their presence, in addition to the 2,000 soldiers deployed to protect them, has transformed the lives of 120,000 Palestinians into hell.

Temporary International Presence in HEBRON (TIPH)

In 1994 Baruch Goldstein, a fanatical Israeli settler, in the tomb of the patriarchs (Hebron) massacred 29 Palestinians who had come to pray at the Ibrahimi Mosque, and wounded 125 people.

Following that event, Israel and the ANP demanded the presence of international observers in Hebron. Italy, Norway, Sweden, Switzerland and Turkey provided the necessary personnel. Their mission is also the maintenance of peace and security for the Palestinians. Observers (unarmed) write reports for the attention of the two parties.

In January 1994 Israeli Prime Minister Netanyahu demanded the withdrawal of international observers by pretending they do not contribute to peacekeeping.

The Templars in Palestine

The german colony in Haifa

German Templars in Palestine founded several prosperous rural settlements that became a model for the Zionist settlers: Sarona (1871) at Jaffa, Wilhelma (1902) at Lydda, Bethlehem (1906) and Waldheim (1907) in Galilee. During the Second World War, the British deported many German Templars to Cyprus and then to Australia, and others were used as bargaining chips with the Nazi regime. In 1948 the Zionists expelled the Templars permanently and confiscated their property's. Consequently, the Templars moved to Australia. As compensation in 1962, the Israeli government gave 54 million German marks to them, money that was paid by West Germany as compensation to Israel. Today the beautiful Templar houses and their farms are occupied by the Israeli bourgeoisie.

Many of them are Palestinians who have already been refugees in Syria for a long time

Jerusalem, March 2013

The Israeli Jerusalem Municipality has been developing a plan (No. 13900) to establish a landfill in Wadi Al Rej'iyyat area, on the land of the villages of Anata, Issawiyya and Shu'fat . So far, the program has been approved by the Local Planning and Building Committee and initially accepted by the District Planning and Building Committee prior to being placed for public review.

In the West Bank there are at least 15 Israeli waste plants , not for Palestinian use. At least 6 plants treat toxic waste. The rules for these plants are rather weak and the controls are insufficient.

553

Garbade from Israel to Palestine

For the Israelis,
occupied Palestine is a
(illegal) waste dump.

Israel and its colonies annually discharge 224,000 tons of waste into Palestinian territory, often polluting villages, streams and farms. Drinking water is contaminated by broken, and unrepaired, pipelines and sewage. (Arjan El Fassed)

Israel destroys Palestinian civil society

The yogurt factory Al-Rayyan in Hebron was destroyed by the Israelis in early September 2014. This factory allowed charitable organization that operated it to maintain two orphanages and 9 schools for the handicapped and provide employment to many poor people.

Now about 4'000 people are without any support. Before demolishing the factory the Israelis confiscated equipment, including a computer system valued at 2 million dollars.

Comment: If you think Israel targeting Palestinian orphans is new, you're wrong. In 2008, for example, hundreds of Israeli occupation troops stormed a Palestinian orphanage and boarding school in Hebron and looted millions of dollars worth of food, dairy products, clothes, shoes, refrigerators, kitchen equipment, crates of frozen meat, sanitary supplies, sports equipment, blankets and mattresses....used by more than 7,000 orphans, run by the Islamic Charitable Society. They forced open the main gate and loaded everything on trucks in order to liquidate social and educational infrastructure at the price of the welfare of innocent children. On this same rampage, Israel confiscated the land of several school buildings, an orphanage, a supermarket, several apartment buildings, school busses and destroyed other businesses - - looting computers, cabinets, furniture, appliances and even taking the windows. They also arrested the management staff. This was organized robbery. Gestapo style. Heartless. Obsessive.

The destruction of Bedouin villages

To prevent the reconstruction of the village the Israelis take the remains of houses and seize furniture and private property including the schoolbooks of the children.

2017 - Satellite photo of the Bedouin village of Umm al-Hiran, in the Negev. it's possible to recognize the houses, the deposits and the olive grove. In blue is indicated the planned Israeli settlement of "Hiran" reserved for the Jews and which will be built in place of the Bedouin village. The Bedouins will have to leave and will even have to pay for the demolition of their homes.
